Total Faculty Members: **13 Regular + 01 Trainee Teacher + 03 (Contractual) = 17**

**Faculty counted for SFR:**

- 02 faculties (Mr. Aaqib Ali Abbas and Dr. Shufali Ashraf Wani) taught Basic Electrical Engineering for first year UG students.
- 01 faculty is a Trainee Teacher.

Hence, total number of faculty counted for SFR = **14**

## 5.5 Faculty Competencies in Correlation to Program Specific Criteria (10)

The program curriculum is designed to make the students able to analyze and design complex electrical systems and devices. It covers major areas of electric circuit analysis and synthesis, electric machines, power systems, control systems, electrical measurements, and power electronics. The department has the highly competent faculty to cater to the theoretical and practical requirement of all the major and allied areas of the program.

Name of Faculty	Qualification	Area of Specialization/Research Area
Prof. Aijaz Ahmad	Ph.D.	Power System Operation & Optimization, Flexible AC Transmission Systems, Energy System Planning & Audit
Prof. Mairaj-ud-Din Mufti	Ph.D.	Control Systems, Power System Dynamics and Control, Energy Conversion and Energy Storage Devices
Prof. Shameem Ahmad Lone	Ph.D.	Stand-Alone Power Systems, Application of Energy Storage Devices in power systems, Measurement, and Instrumentation
Prof. Abdul Hamid Bhat	Ph.D.	Power Electronics and Drives, FACTS, Power Quality, Custom Power Devices
Dr. Sheikh Javed Iqbal	Ph.D.	High Voltage, Engineering, Power System Dynamics and Control, Renewable Energy, Distributed Generation
Dr. Mohammad Abid Bazaz	Ph.D.	Control System, Model Order reduction of dynamical systems
Dr. Obbu Chandra Sekhar	Ph.D.	Power Electronics Control of Electrical Drives, Special Machines and Control, Modulation and Control of Multi-Level Inverters, FACTS Controllers, Micro Grids and Smart Grids
Dr. Asadur Rahman	Ph.D.	Power System Optimization & Control (AGC), Renewable Energy Systems (Solar & Wind), Hybrid Energy System & Smart Grid, Application of Soft Computing in Power & Energy Systems.
Dr. Neeraj Gupta	Ph.D.	Power System, Renewable energy system, Probabilistic power system, Uncertainty quantification of power system, Power system analytics, Micro-Grid, Smart-Grid, Wind, PV and Electric Vehicle modelling. Grid integration of RES.
Dr. Farhad Ilahi Bakhsh	Ph.D.	Variable Frequency Transformer (VFT), Renewable Energy Systems (Solar and Wind), Power Electronics, Drives and Alternate Energy Vehicles.
Dr. Kushal M Jagtap	Ph.D.	Demand Side Management, Electric Vehicles, Smart Grid, Deregulation of Power System, Loss Allocation in Distribution Network, Distributed Generation, Storage System
Dr. Ravi Bhushan	Ph.D.	Power System Stability & Control, Wind Energy Systems, Applications of Optimal Controller in Power Systems.
Dr. Chilaka Ranga	Ph.D.	Condition Monitoring of Transformer and Rotating Machines, Artificial Intelligence based Health Assessment and Fault Diagnosis of Electrical Apparatus, Advances in Dielectrics and Electrical Insulation, High Voltage Engineering, Digital Signal Processing.
Dr. Tabish Nazir Mir	Ph.D.	Power Electronics, Induction Machine Drives, Power Quality

Dr. Shoeb Hussain	Ph.D	Control Theory, Electric Drives, Artificial Intelligence based Control
Dr. Damodhara V Siva Krishna Rao K	Ph.D	Solar Photovoltaic systems (grid connected and stand-alone), forecasting techniques, MPPT techniques, Electric Vehicles and Smart grid technologies
Dr. Hareesh Myneni	Ph.D	Power Quality Improvement in Distribution System

## 5.6 Innovations by the Faculty in Teaching and Learning (10)

Some of the methods adopted by faculty for improvement of student learning are:

- IEEE Student Chapter was established by Dr. Farhad Ilahi Bakhsh. This chapter gives an opportunity to all the students of the Institute to build their academic career, offering programs, activities, and professional networking opportunities that can create critical skills outside of the classroom.
- Dr. Chilaka Ranga initiated an IET student chapter (On Campus) on 15<sup>th</sup> October 2019. It gives the skills and experience to the students to succeed in their career, and supports young engineers and technicians in our Institute.
- Student club was started by Dr. Asadur Rahman. It maintains and improves the healthy atmosphere among the students.
- Dr. Ravi Bhushan started an Annual Departmental Newsletter containing information of the different departmental activities. This newsletter may expand the overall branding among the students inside and outside campus that are interested in what's happening at the department.
- Dr. Kushal M. Jagtap started Electrical Students Club in order to develop hardware projects and innovation in the area of electrical engineering.
- For the betterment of the students, remedial classes have been started in the Department. Dr. Chilaka Ranga and Dr. Ravi Bhushan are the Co-ordinates of these Remedial Classes.
- Prof. A. H. Bhat installed Micro Lab Box in Power Electronics Lab to ensure the availability of all latest equipments for Electrical Engineering students on 08-Aug-2019.
- Digital Real-time simulator was installed by Prof. A. H. Bhat in Power Electronics Lab on 09-Sep-2019. The simulator helps in providing real-time experimentation on all Power Electronic Devices for quality research.
- Faculty use Google classroom for sharing the notes/for discussion with students.
- Faculty Development Programmes were conducted by the Institute to enhance the teaching skills of the faculties.
- Students are free to discuss problems by interacting with the faculty by email, mobile applications.

- Students are encouraged to give presentations on topics pertaining to the state-of-the-art of the courses being taught.
- Lecture notes and class assignments are uploaded on the Institute website from time to time.
- Software tools like MATLAB/Simulink are used to simulate and analyze systems for a better understanding of the theoretical concepts taught in classrooms.
- Demonstrative simulation models are also uploaded on the Institute website for use and further development by the students.

### 5.8.3 Development Activities (15)

#### A) Research Laboratories

The following laboratories are extensively used for research activities:

- Energy Systems laboratory
- Power Electronics laboratory
- Virtual Instrumentation Laboratory

#### B) Working Models/ Charts/ Monograms

Many working models/ laboratory kits have been developed in the departments that serve as instructional aid/conduct of practical work by the students.

- Automatic DC motor Starter (Relay based).
- Model of a 132-kV, 50-MW, 100-km transmission line.
- Set-up demonstrating time grading of relays.
- A laboratory model of over-current protection of transformer and transmission lines using microprocessor-based relays.
- Laboratory set-up for determination of positive, negative and zero sequences components of the 3-phase transformer.
- Laboratory set-up of differential protection of a single-phase transformer.
- Laboratory set-up of linear firing scheme.
- Resistance triggering technique for SCR's
- Bridge Rectifier
- 3-phase Voltage Source Inverter
- Single-phase to 3-phase Matrix Converter PCB Setup.
- 3-phase to 3-phase Matrix Converter PCB Setup.
- UJT firing circuit

**5.9 Faculty Performance Appraisal and Development System (FPADS)(10)**

The institute has in place a continuous, well-thought-of and effective faculty performance appraisal system for the faculty members. For this purpose an ‘Annual Assessment Report for the Faculty Staff’ is prepared for every faculty member which gives a detailed description of his/ her contribution to the teaching-learning process, contribution in laboratory development, course development, development of teaching aids, laboratory manuals, special lectures, participation in of organizing seminars, symposia, conferences, continuing education programs, research and development activities, sponsored research projects, contribution to department and institute administration, etc. A copy of the Assessment form is provided in Annexure X.

The annual assessment report is given a due weightage in the process of promotion/ upgradation of faculty members and hence plays a vital role in the development of the academic, research and administrative system of the institute.

**5.10 Visiting/ Adjunct/ Emeritus Faculty (10)**

A few special lectures were organized by the department during the assessment years which include:

- ‘Solar Photovoltaic System- Role of Power Electronics’ by Prof. Zainul Salam, Professor, Centre of Electrical Engineering Systems (CEES), Universiti Teknologi Malaysia, 2017.
- ‘How to Publish Research Work in High Impact Journals’ Prof. Zainul Salam, Professor, Centre of Electrical Engineering Systems (CEES), Universiti Teknologi Malaysia, 2017.
- “Introduction and Basics of Programming skills using MATLAB and PYTHON” 27<sup>th</sup> to 31<sup>st</sup> May, 2019 by Dr. Santosh Bharti, School of Computer Science, PDPU, Gujarat, India.
